PERSONAL DICTIONARY
&
VOCABULARY CONCEPT CARDS

DO NOT WRITE ON THIS PAGE

Instructions:

- Title the top of your entry for your Personal Dictionary (PD) (i.e. main idea of the lesson or unit title as directed by the teacher)
- Under the title, write an alphabetical list of the terms.
- Following the alphabetical list of terms, you will write the terms and their definitions (again, these entries should appear alphabetically)
- *Your teacher may provide you with a cut/paste of your PD entry – If so, you may simply cut/paste this page as your next PD entry and move on to creating your Vocabulary Concept Cards (VCCs).
- After compiling this entry for your PD, create a pocket to store your VCCs on the next available blank page. Use a 4”x6” notecard and paste it horizontally at the bottom of the page. Paste down both short sides (4”) and the bottom long side (6”). Make sure all three sides are pasted securely so your cards to not fall out.
- You will then use this template to fill in each portion of your VCCs.
- You will use index cards (3”x5”) for construction.
- Label each section as indicated in the template.
- Follow the instructions in each portion of the graphic organizer carefully.

FRONT

Term: Vocabterm Name/Period
Vocabulary Term/Original Use: Write the Vocab Term: Then copy the entire sentence where the term was originally found. If the term was given to you to find a definition, simply write the term here.
Definition: This is where you will construct or copy the correct definition of the term.

BACK

My Sentence: This is where you will write your own sentence, using the given term. You must use the term correctly in your sentence.
Draw a visual clue to help you remember the definition.
